**PLACING AN ORDER**

When placing an order, pay particular attention to the **deadline date**. If you place your order by the deadline date, **you will save money**. Orders received after the deadline date or orders received without full payment will be billed at the standard rate.

The **Advance** rates apply when your **complete order and payment** are received by us on or before the deadline date. The **Standard** rates apply to all orders received after the deadline date (Late Order), orders received before the deadline date without full payment and floor plans (Partial Order), and all orders placed or changed on site (On-Site Order).

**A COMPLETE ORDER CONTAINS ALL OF THE FOLLOWING ELEMENTS:**
- Order and Payment Summary Form
- Technology Service Order Form(s)
- Floor Plan Template

During the event you will receive an On-Site Invoice for your technology services including itemized inbound labor and non-itemized tear out labor. **You will remit payment for the On-Site Invoice at this time.**

This invoice will not include any telephone usage. Telephone usage is calculated at the close of the event and charged to your credit card at that time.
TELEPHONE SERVICES

1. Once installed, telephone service is active 24 hours a day for the entire length of the event. The dial tone is typically deactivated in the morning following the last day of the event. If you require service beyond that, please contact our Service Desk. Reactivating fees apply if service needs to be re-established.

2. The cost of our telephone service includes telephone usage*. All telephone calls made from your telephone line once it is installed are your responsibility. Credit will not be given for telephone calls made over installed lines. To guard against unauthorized use, be sure to secure your telephone each night. Telephone usage will be billed to your credit card shortly after the close of the event. If you need a detail of all calls made, contact us at (312) 791-6113.

3. **Telecommunications Tax:** In the State of Illinois and the City of Chicago a Telecommunications Tax is required. These taxes are based upon current communications tax rates, and are subject to change without notice. Tax exemptions do not apply for these items.

4. **International Usage Deposit:** For internationally billed companies, a usage deposit of $300.00 per line is required before “calling out” restrictions are lifted. Including the deposit at the time of your initial order will ensure that you will be able to call out as soon as you plug your telephone into the line. If your total usage is less than the usage deposit, the balance will be applied towards any outstanding charges.

DESCRIPTION OF TELEPHONE SERVICES

Telephone usage (if applicable) is billed after the close of the event and billed to your credit card.

1. **Analog Single Line Service:** Includes the installation of a touch-tone line and rental of a single line telephone instrument. We do not require that you return the trimline telephone instruments.

2. **Extension - Single Line:** Is an extension of the main Single Line service. This would be ordered if you need one telephone number shared by two telephone instruments (Only if you have ordered an Analog Single-Line Service)

3. **Digital Multi-Line Service:** Includes the installation of a touch-tone line and one multi-line telephone with a maximum capacity of up to seven appearances of the telephone line. Voicemail, if requested, is included along with fixed features such as hold, conference and transfer. These telephones are to be returned to avoid being charged a telephone replacement fee.

4. **Extension - Multi-Line:** Is an extension of the Digital Multi-Line service. This would be ordered if you need one telephone number shared by two telephone instruments (Only if you have ordered a Digital Multi-Line service).

5. **Voicemail System:** Our system is designed to ensure that all incoming calls to your booth will always be answered. Voicemail is operational 24 hours a day for the duration of the event.

6. **Other Carrier Services:** Any service delivered by an outside vendor such as POT’s (Plain Old Telephone), T1’s and ISDN.

*Some exceptions may apply. Please refer to your order form or visit our website for complete details.
CABLE TELEVISION ACCESS  
(South and West Buildings only)  

INTERNET SERVICE  

We also offer a full menu of Wired and Wireless Internet to meet a wide range of needs and budgets. All services include 24 hour access through the move-in, event and move-out. The Technology Services department will work with you and your staff to meet your needs. If you have Internet questions, call (312) 791-6113 or E-mail: technology@mccormickplace.com.  

Please note:  
- The State of Illinois and the City of Chicago require a non-exempt telecommunications tax for all telephone and Internet Services. These taxes are excise and not resale or sales tax exempt.  

DESCRIPTION OF INTERNET SERVICES  

The following chart highlights the services offered. Please note the number of additional IP addresses available with each wired service. All wired services are delivered via Category 5 or 6 wiring with RJ45 terminated ends. For wired services, you must supply a device with an Ethernet NIC (Network Interface Card), installed TCP/IP, and an Internet browser. For wireless services, you must provide a device with an 802.11 a, b, g, or n wireless receiver. Our wireless network is optimized for 802.11 a and n devices transmitting and receiving at 5.0 Ghz. Your quality of service on the wireless network may vary widely depending upon hardware and environmental factors such as booth structures, attendee traffic, and location. For mission critical applications, McCormick Place strongly recommends using a wired dedicated service whenever possible. There are no firewalls or filtering on our connection to the Internet. Please consider your vulnerabilities; make sure you have up-to-date anti-virus software installed on your computer and consider the use of a firewall (we offer firewalls for rental). All Internet prices are a flat rate; no per minute usage or connection charges apply.

McCormick Place is proud to provide industry-leading, high quality wired and wireless internet services to meet the information needs of show managers, exhibitors, and event attendees. As the exclusive provider of wired and 802.11 wireless internet service, McCormick Place’s competitive service offerings are capable of meeting the needs of any customer class. As leaders in the field of convention center internet delivery, McCormick Place offers many right-sized services and strives to lead the industry in both pricing and quality of service. Inasmuch as McCormick Place recognizes the need for competition to help maintain fair and honest pricing, that competition does exist between facilities. When comparing like services and their standard rates, McCormick Place leads the way in providing the most value for the dollar. The biggest threat to successful implementation of a well-deployed Wi-Fi infrastructure is interference. Given the nature of wireless services in an environment such as a convention center, McCormick Place closely monitors Wi-Fi usage to ensure our customers receive the best possible service.

In order to help our customers who need the type of service that is delivered by “internet in a briefcase” providers, McCormick Place has developed a service offering to deliver an improved version of what these outside providers sell, and do so at a lower net cost. The chart below compares a sample third party’s offering with McCormick Place’s improved service;

Although the initial appearance is that the “bring your own internet” option is attractive, clearly it is advantageous to purchase directly from the facility. To recap some of the benefits to McCormick Place’s VIP Wireless offering:

• Price: McCormick Place VIP Wireless is more cost effective than outside providers of Wi-Fi.
• Support: The only supported wireless provider is McCormick Place. As such, we:
  o Visit customers who are having issues
  o Help customers with device configuration
  o Work to resolve interference issues with neighboring exhibitors who may not be following McCormick Place rules for Wi-Fi use
  o Add equipment directly to an affected user’s booth if necessary
• Convenience: There is no need to utilize a freight carrier such as Fed Ex or UPS to transport devices, etc. The in-house, in place equipment is all that is required.
• Service: Unlike “bring your own” options, McCormick Place VIP Wireless works throughout the facility.
WIRELESS ACCESS POINT WAIVER

- McCormick Place is the exclusive provider of wired and IEEE Standard 802.11 Wireless (Wi-Fi) Internet Services in all McCormick Place Facilities except for the McCormick Place Hyatt Hotel.

- McCormick Place may offer a waiver to allow an exhibitor to provide their own wireless. A waiver will only be provided under the following conditions:

  o The exhibitor must register their access point(s) using the McCormick Place Wi-Fi Waiver Form, and provide all required information at least 30 days in advance of the first move-in day for the show.

  o The exhibitor must purchase a 6 MBPS or greater dedicated wired internet service from the facility.

  o Any approved access points must be capable of manual power output and channel selection adjustments.

  o The exhibitor must configure the approved access point to the requirements specified by the facility.

  o Notwithstanding our best efforts to eliminate interference, if the exhibitor provided unit interferes with the facility’s Wi-Fi system, the exhibitor will be required to disable it. If the access points were registered with the facility, the exhibitor will receive a refund for their wired service (excluding any labor to set up their equipment) and be allowed to purchase Wi-Fi service on the facility network.

  o If an exhibitor is found to be operating a non-approved wireless network using a McCormick Place wired service, the wired service will be terminated.

  o Exhibitors who are granted a waiver will not have access to the facility Wi-Fi network for areas outside their broadcast area unless they purchase those services from the facility.

There are several vendors who currently provide small portable Wi-Fi systems which connect to a cellular carrier and provide Wi-Fi service to linked devices. While this may appear to be a great solution to an individual who wants to provide temporary Wi-Fi services they typically interfere with the Wi-Fi signal provided to users on the facility system. These vendors are not authorized nor allowed to enter the complex for any service related issues. McCormick Place provides a competitively priced exhibitor targeted Wi-Fi service which can be used throughout the facility and which is supported by an in-house staff. McCormick Place does not allow the transmission of IEEE standard 802.11(Wi-Fi) signals from self-contained portable Wi-Fi systems.

FACILITY REGULATIONS

Animals and Pets

• Domestic animals: If you plan to use a domestic animal (i.e., cat or dog) in your exhibit, be sure to contact your Show Manager for approval. An insurance disclaimer will need to be completed. Upon proof of show management approval, disclaimer forms can be obtained through the McCormick Place Risk Management Department at (312) 791-7113.

• Non-domestic, endangered or exotic animals: The use of these animals must be approved by your Show Manager. In addition to the disclaimer form, you must also contact our Loss Prevention Manager at (312) 791-7113.

Balloons and Radio-Operated Air Devices

• Radio-operated blimps and similar devices are permitted on the event floor with pre-approval in writing from Show Management and with a certificate of accident insurance.

• To prevent escape to the ceiling, helium-filled balloons and similar objects must be secured. If they do escape to the ceiling, you may be charged removal fees.

• Helium-filled balloons or any other helium-filled object may not be distributed.

• Mylar balloons are prohibited due to their effect on the fire detection systems.

Smoking

• In accordance with the City of Chicago Fire Department and the City of Chicago, smoking is not permitted in McCormick Place. Smoking stations are located outside of the facility.

Exhibits in Meeting Rooms

• If a meeting room has been assigned to your company for exhibit or meeting use, please contact the McCormick Place Event Management Department for specific meeting room guidelines.

• Storage of combustible materials in meeting rooms, ballrooms or service corridors is prohibited.

• Crates, cartons, pallets, pallet jacks, forklifts, etc., are not allowed in meeting rooms. All freight must be uncrated or removed from pallets prior to entering the room. Movement of freight should be done using flat trucks dedicated to carpet use. If other flat trucks or dollies are used, appropriate floor protection (Visqueen or Masonite) must be installed.

• Storage of containers, skids, etc. is prohibited inside the facility. These items must be moved to the appropriate crate storage area. Please contact your Contractor or the official event service contractor to assist you. Removal of such items is a Fire Safety regulation and subject to inspection by the Fire Marshal.
Hanging Items

Hanging items are defined as any materials, including but not limited to, signs and machinery, which are hung from or attached to ceilings, exhibit structures or building supports.

All requests for hanging items must be reviewed and approved by Show Management.

The responsibility to hang an item is shared by your general service contractor and the utility provider.

NOTE: Items weighing 500 lbs or more: Drawings must be reviewed, signed and stamped by a licensed structural engineer to CERTIFY STRUCTRUAL INTEGRITY AND SAFTEY.

- These rules and regulations provide absolute limits which cannot be exceeded under any circumstances or conditions.
- Fire Retardant regulations also apply to hanging items. Refer questions regarding fire retardancy to the Fire Safety Manager at (312) 791-6079.
- No hanging items are to be hung from any electrical fixtures, raceways, water, gas, air, fire protection, communications lines, piping, supports or hangers.
- All electrical and neon items must conform to City of Chicago Electrical Codes.
- The use of MIS, Octonorm or similar components systems for hanging signs is not permitted in our facility.

Parking / ASUV Program

To register for the ASUV self-loading/unloading program and/or purchase parking permits online review our Automobile and Small Utility Vehicle (ASUV) Program at:
www.mccormickplace.com/exhibitors/asuv.php

Option 1 - Self-loading/Unloading ASUV

McCormick Place allows exhibitors to unload and load small privately-owned vehicles without hiring labor at designated areas in the building. Show management will determine the hours of operation for each event.

Option 2 - Exhibitor Guaranteed Parking

Also, a limited number of guaranteed parking spaces are available by advance order of an Exhibitor Parking Permit. This permit allows access to the garages with in-and-out privileges. Parking spaces are guaranteed even if lots fill to capacity.
FIRE AND SAFETY REGULATIONS

Fire Prevention reserves the right to make any final decisions regarding the outlined requirements, according to Section 2-36-220 of the Municipal Code of Chicago on Fire Prevention.

Prior to the show opening and at any time during the event, the Fire Marshal may inspect the booths to ensure these requirements are met. If they are not, adjustments can be costly, and if a booth imposes a significant fire hazard, it will be prohibited from exhibiting.

If you have any questions or need fire code information please call the Fire & Safety Manager at (312) 791-6079.

Booth Staging

In addition to equipment and furniture placed within a booth space, Exhibitors are allowed to stage the following items:

- Boxed or loose product, materials or literature.
- Fiber cases used to ship pop-up displays.
- Personal items such as luggage, purses, briefcases or coats.

The following restrictions must be observed when staging these additional items:

- The amount of product, materials or literature that may be staged within a booth space must not exceed a one-day supply.
- Items may be placed either in a display case, on a counter, on a shelving unit, in a closet, on a table, under a table or stacked neatly within the booth space.
- Items that are placed under a table must not protrude outside the table dimensions.
- Items that are stacked must not create a tripping hazard or hamper easy movement within the booth space.
- Items may not be placed on or within six inches of floor ports, electrical wiring or cabling.
- Pallets, empty crates, cartons and boxes may not be stored in the booth space.
- Staging will not be allowed behind the back wall of the booth and behind the drape within the booth.
- Fire Safety personnel will patrol the exhibit area. If anyone is in violation a written notice will be given to the exhibitor.

Fire Retardancy

Booth construction and decoration materials must be fire retardant. It is suggested that a certificate of retardancy be available at the show to prevent the need for possible on-site testing of the material. Fabrics must pass the NFPA-701 Code, and all other construction and decoration materials must pass the NFPA-703 Code as well as the UL-1975 test. General guidelines for material fire retardancy include:

- Backdrops, tents, canopies, dust and table covers, drapes and similar fabrics: These fabrics can often be made fire retardant by a dry cleaner that can issue a certificate of fire retardancy. Suppliers and/or display manufacturers can also provide a certificate included with the materials.
- Corrugated cardboard/display boxes: These materials can best be made fire retardant at a factory.
- Wood and wood by-products: If wood materials are not sufficiently fire retardant, a certified fire retardant specialist using pressure impregnation or similar impregnation method must treat them.
- Polyurethane foam, plastic and similar products.
Open Flame Devices
Used for illumination or decoration, such as candles, gelled alcohol fuel fire bowls, firepots or fireplaces must comply with the following:

- Prior notification and review by the McCormick Place Fire Safety Manager, the Fire Prevention Bureau, the Fire Marshal and Show Management.
- Must be contained inside a non-combustible enclosure that totally encapsulates the flame providing a measure of safety to the public.
- Must be positioned on a non-combustible surface with 24 inch clearance of the flame device from any combustibles and booth back wall.
- Must have a mechanism available to quickly and safely extinguish the flame.
- Must have at least one multipurpose fire extinguisher rated minimum 2 – A :10- B:C strategically located with the booth.
- Booth personnel should be familiar with the operation of the fire extinguisher.
- Booth personnel must be in attendance whenever the device is in use.
- Maximum one day supply of the replacement fuel allowed in booth.
- Device must be allowed to cool before refueling.
- Flame must be extinguished ½ hour prior to closing.

Hazardous Demonstration/Display Materials/Pyrotechnics
When designing demonstrations and displays, note that the following devices require pre-approval by McCormick Place and the Chicago Fire Department.

- Lasers, open flames (including candles)
- Smoke-producing devices
- Indoor Pyrotechnics have special permitting procedures through the City of Chicago Fire Prevention Bureau. Contact the Assistant Director of Fire Safety.
- Heating appliances
- Welding, brazing or cutting equipment
- Radioactive materials
- Compressed gas or compressed liquid cylinders if applicable used in the booth must be securely anchored to prevent toppling.
- Gasoline, kerosene or other flammable, toxic liquid, solid or gas
  - A limited supply of these fuels may be stored in the demonstration device, but cannot be stored overnight.
  - All fuel transfers must use safety cans.
- When displaying a flammable or combustible labeled product, the display container shall be empty. Up to two aerosol cans may be used for demonstration purposes only.

Approval requests must be sent in 60 days before move-in of the event. The request must state how the demonstration will avoid hazards to people or nearby objects. Plexiglas or similar protection is required whenever sparking may occur. Fire extinguishers will also be required.

Any chemical, substance or material deemed hazardous by OSHA requires pre-approval and must be accompanied with the appropriate Material Safety Data Sheet (MSDS). McCormick Place Fire Safety Office will need copies of the MSDS before the materials arrive.
Prohibited Materials

The following items are fire-hazardous and prohibited in McCormick Place:

- All flammable compressed gases, such as propane and butane
- Explosives and live ammunition
- Untreated Christmas trees, cut evergreens or similar trees
- Fireplace logs and similar materials
- Charcoal
- Untreated mulch, Hay, Straw, Bamboo and Spanish moss

Cooking and Heat-Generating Devices

If cooking or heating appliances will be used, they must be powered electrically or by natural gas. Stoves and heaters for booth usage must be UL listed/approved and also be adequately ventilated. Nothing combustible may be placed near any heat-producing appliance. A UL listed/approved, 2 – A :10 – B : C  ABC-type fire extinguisher is required in such exhibits.

Fire Hose Cabinets, Pull Stations, Aisles and Exits

- Each of these fire safety supports must be visible and accessible at all times. Adjustments to space and equipment may be required.
- Chairs, tables and other display equipment must be clear of all aisles, corridors, stairways and other exit areas.

Vehicle Displays

- Any vehicle or other apparatus that has a fuel tank and is part of a display, is required to be equipped with a locking (or taped) gas cap and can contain no more than 1/8 tank of fuel.
- Once the vehicle has been positioned, it cannot be moved until move-out begins, without prior approval by the McCormick Place Fire Safety Manager or Designee.
- Battery cables must be disconnected once the vehicle is positioned. The engine cannot be operated during show hours.
- Refueling must be done off property.

Hazardous Materials Management

Neither McCormick Place Housekeeping Department nor your official service contractor manages hazardous material removal. However, the McCormick Place Event Management Department can provide contractor names specializing in this service. Exhibitors are responsible to make their own arrangements.
Multi-Level Booths or Ceilings (including tents)

Double-decker booths or booths with ceilings (including tents) were previously required to be equipped with fire safety devices. However, our Fire Safety Department and major show contractors have worked with the Chicago Fire Department to develop specific codes for the trade show environment that would offer a safe and cost-effective alternative to sprinklers. These specific requirements apply to all exhibits that have a ceiling or second story.

Booths fall into one of the five following booth formats:

- **Format 1:** Exhibits with two stories under 225 square feet
- **Format 2:** Exhibits with two stories at or over 225 square feet
- **Format 3:** Exhibits with ceilings under 225 square feet
- **Format 4:** Exhibits with ceilings at or over 225 square feet
- **Format 5:** Multiple-level exhibits, which require automatic sprinklers or any of the above exhibits with installed automatic sprinklers. Separate fire code items apply.

For booth formats 1–4, you will need to comply with the fire code items marked yes on the following table:

<table>
<thead>
<tr>
<th>Fire Code Item</th>
<th>Booth Format</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Max. Dimensions</td>

<tr>

</tbody>
</table>

For exhibits using automatic sprinklers, the amount and type of sprinkler coverage needed depends on the booth specifications. If automatic sprinklers are preferred, or are required, contact our Fire Safety Office to discuss your options.
Fire Code Items for Multiple Level Booths

- **Maximum Dimensions:** To avoid the sprinkler requirement, your exhibit must be less than or equal to 2 levels high (maximum 30-foot elevation) or 5,000 square feet of enclosed area.
- **Second Level:** Second levels must remain open and uncovered. If they are covered, sprinkler protection will be required. Booths with a third level or more must also have special sprinkler coverage.
- **Staircases:** Staircases between levels must be in compliance with the Americans With Disabilities Act and meet the following requirements:
  - Minimum of 3 feet in width
  - Provide a handrail on at least one side
  - Provide handrails a maximum of 1-1/2 inches in circumference and turned into walls
  - Not be spiral or winding
  - If the top deck is designed to hold over 10 people, or exceeds 1,200 square feet in area, a second staircase is required which must be remote from the main staircase and meet the same construction requirements.
- **Smoke Detectors:** All areas under the second level or ceiling, including closets, need to be equipped with a UL approved (or similarly approved), battery-operated smoke detector. If this space is enclosed after hours, the smoke detector must be audible outside the enclosed area.
- **Fire Extinguishers:** A UL-approved (or similarly approved) 2-1/2 pound ABC-type fire extinguisher must be posted in a clearly visible and readily accessible area for each 500 square-foot enclosure.
- **Posted Certificate of Fire Retardancy:** A certificate verifying the fire retardancy of your booth construction materials must be posted in a conspicuous place within the exhibit.
- **Certified Approval:** After the booth has been designed, the blueprints must be approved and stamped by a licensed professional structural engineer. These blueprints should include dimensions and an isometric rendering. This approval applies to all booth formats outlined previously.
- **Fire Safety Review:** Send stamped blueprints to McCormick Place for review with the Fire Safety Division and by the Chicago Fire Department, Fire Prevention Bureau at least 60 days before the show opens to allow sufficient time for any needed corrections. Be sure that plans show dimensions and an isometric rendering of your exhibit. In addition, all areas requiring sprinkler protection must be highlighted. If plans are not provided on time, it may cause delays or disapproval of your booth to occur during the pre-show fire inspection.
- **Fire Guards:** Once a multiple level booth or a booth with a ceiling is built and completed, and whenever the exhibit or show is closed for business, special fire watch coverage is required. Use of individuals designated as fire guards is subject to prior approval by the McCormick Place Assistant Director of Fire Safety.
- **Americans with Disabilities Act:** All exhibits must comply with the ADA. For information on compliance, contact the McCormick Place Assistant Director of Fire Safety.
